

Burettes - Automatic - Glass 1

Same as above but with intermediate PTFE stopcock.

Class-A

Code	Capacity	Sub. Div.	Tolerance \pm
CH0242P	10 ml	0.05 ml	0.03 ml
CH0242Q	25 ml	0.10 ml	0.05 ml
CH0242R	50 ml	0.10 ml	0.05 ml
CH0242S	100 ml	0.20 ml	0.10 ml

Class-B

Code	Capacity	Sub. Div.	Tolerance \pm
CH0242T	10 ml	0.05 ml	0.05 ml
CH0242U	25 ml	0.10 ml	0.10 ml
CH0242V	50 ml	0.10 ml	0.10 ml
CH0242W	100 ml	0.20 ml	0.20 ml

**Burettes - Automatic - Zeroing** 2

Automatic burette made of borosilicate glass which is self-zeroing. 0.1ml resolution with permanent blue markings against a white background for easy viewing. Stopcock is pushbutton style for ease of use to deliver fluids drop by drop. Attached to the stopcock is a screw clamp for repeat titrations. This set up is a complete self supporting structure with a heavy duty base made of polyethylene which the reservoir snaps into. The advantage to a system such as this is that it is a completely closed system.

Class-A

Code	Capacity	Sub. Div.	Tolerance \pm	Volume Bottle
CH0242J	25 ml	0.10 ml	0.05 ml	1000 ml
CH0242K	50 ml	0.10 ml	0.05 ml	1000 ml

Spare Accessories for Automatic Burette

Code	Specs
CH0242M	Spare Bottle - 1000 ml
CH0242N	Spare Jet - Pack of 5
